

## Falkenoil DOT 4

### Description/Application/Properties

High performance brake fluid, which is designed to meet the requirements of modern motor car brake systems with disc- and drum brakes. Brake fluid DOT 4 exceeds DOT 3 (US Federal Standard 116).

- Wet boiling pointt > 165°C
- Boiling point > 265°C
- More safety by reduced boiling point drop
- For all hydraulic brake systems
- Miscible with brake fluids of equal specification

Falkenoil DOT 4 is suitable for motor car brake systems DOT 3 / DOT 4. The product is completely compatible with comparably brake fluids. In order to achieve full performance it is recommended to use only Falkenoil DOT 4 for re-filling.

Falkenoil DOT 4 to be stored only originally sealed. Straight after use the brake fluid container has to be sealed airproof again. Necessarily follow the service instructions for re-filling. For re-filling hydraulic brake systems absolute cleanliness is required. The fluid may be harmful for vehicle paintwork.

Brake fluids have to be separately collected and disposed. They must not be mixed-up with waste oil.

### Specification/Recommendation

- FMVSS 116
- SAE J 1703 / J 1704
- ISO 4925 Class 4
